

## Careers Learning Challenges to do at Home

### CREATE A JOB ADVERT

Create a job advert for a key worker.  
*What skills would they need? What duties would the job involve?*  
*What sort of pay should they expect? Who should apply?*  
 Remember adverts need to be eye catching, to the point and easy to read!

### FAMILY INTERVIEW

Learn more about the work of a family member or friend by interviewing them about their job.

How did they get it? What do they enjoy about it?  
 What skills do they need to be successful? What challenges have they faced in their career?

### LOCAL JOBS MAP

On your daily walk, have a look around to see what sort of careers and jobs you can see in your local area.

Create a colourful map of the jobs that you see, this could include bus drivers, doctors, ground workers, pharmacists, farmers etc.

### YOUR FUTURE CAREER?

Create a poster for a dream job that you might like to do in the future.

Include interesting information about this career including: **the qualifications needed, the average salary, skills needed to be successful and where you could complete your training.**

### DREAM JOB ILLUSTRATION

Draw a picture of you doing your **ultimate** dream job...use your imaginations and be creative here, the sky is the limit!

Would you be a lion tamer? A professional chocolate taster? A luxury holiday planner? A games tester? A theme park designer
